##### **New Education Policy: The Future of Higher Education**

(One Day Faculty Development Programme organized by the College of Vocational Studies and IQAC on Monday, 8th February 2021 from 11:00 am to 05:00 pm on Google Suites)

College of Vocational Studies & IQAC  
University of Delhi,  
Triveni, Sheikh Sarai, Phase II  
New Delhi - 17

8<sup>th</sup> February 2021

This Faculty Development Programme aims to present an overview and critical appraisal of the New Education Policy of India. The main aim is to review the educational reorientation and the developmental focus the NEP is attempting in the realm of higher education. India is at a stage in its development with a large and young population, a group that has a lot of educational as well as economic and social aspirations and expectations.

Some of the challenges that are to be reviewed in the new policy, among many, are, equality of opportunity and building of capability to meet social justice in our differentiated economy, society and culture. There is a need for a fair and supportive system that respects, supports and encourages teachers. The introspective evaluation is required for the governance of the higher education institutions to overcome the temptation of centralisation and oppressive monitoring. Another challenge is to build faith and construct pragmatic mechanisms for shared and collective responsibility. The myth of high standards and achievables in the given context and the excessive competition and anxiety that are linked to it are additional concerns which need to be addressed.

There are many hopes, fears and expectations from the New Education Policy. We hope that this Faculty Development Programme will be able to clear many doubts and spell out the promised confidence, support and potential resources for the public system of higher education.

The Faculty Development Programme will be dwelling on the following topics:

- NEP and Higher Education : Revisiting the Legacies and Hope for the Future
- NEP and Vocationalization of Higher Education
- NEP and Internationalization of Higher Education
- NEP and Politics of Exclusion and inclusion
