### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

College of Vocational Studies was started in 1972 and the prime focus was on the introduction of vocational education at the undergraduate level. This college is only one college offering full fledged Bachelor in Arts (Vocational Studies) degree courses. This course has been accepted very well in the high cutoff percentage for admission, large number of applications and acceptability by the industry for employment. Even though the college has diversified now and included honors courses also. All seven vocational courses have delivered stellar results every year and the students have been placed successfully after the completion of these courses. The BA(VS) degree is a job oriented degree in the sense it an open ended degree in each vocational course. Each student can move on to different fields such as management, banking, corporate affairs, government affairs, etc. Our alumni are well placed in India and abroad, in private and public sectors. This experiment of having degree course at under graduate level in vocational studies have been very well appreciated and accepted by the government and the focus of Government of India on vocationalisation of education has been initiated in a big way under the scheme of National Vocational Qualification Framework (NVQF) whereby B. Voc and M. Voc. programs are being offered.
